We Are Fully Insured

The British and Irish Spa and Hot Tub Association

# SERVICE: **ANNUAL SERVICE** TECH SHEET.

## **2 PART SPA FLUSH:**

Flush is added to water to clear pipes, Chlorogene is then added to kill bacteria. Your pipes will build up a layer of calcium, dirt and Body Fats which will continue to build up and reduce the power of water flow. These chemicals will help to loosen and break down the build up in the pipes before emptying the spa

## **FILTER CLEAN**

Filters are removed and put into soak using our Filter cleaner. The filters cleaner will clean and remove contaminants from the filter fibres. The filters may need to be replaced; the Technician will inspect and inform you if this is the case – filters can be purchased from Technician on site

## **ELECTRICAL PARTS CHECK**

Maintenance Check of Electrical parts (Full Consumption Function Test) Pumps, blower and heater are electronically tested. Parts are checked over for leaks, wear and tear, noises. Circuit board is tested to make sure all functions are within limit.

## **PLUMBING & LEAK CHECKS**

Pumps/blowers are run to see if any leaks are found on plumbing (please be aware that if spa is fully foamed – we cannot remove foam but can test areas for wetness) Pump/heater gaskets will be fitted if needed

# **SERVICE:** **ANNUAL SERVICE** **TECH SHEET.**

## **JETS ARE REMOVED AND CLEANED**

If needed, we will remove any dirt build-up in jet body that could affect the jets performance

## **DEEP CLEANED**

Spa is then powered down, emptied, cleaned, hosed down and then vacuumed out. The spa will be emptied using our submersible pump and cleaned while being emptied. The vacuum will clear all dirty water and vacuum out each jet to remove any dirty water from pipe work.

## **CABINET WASH AND CLEAN DOWN**

The cabinet/panels are wiped down and hosed off.

## **COVER UV TREATMENT**

We use a unique UV spray to protect the surface of your spa cover

## **SPA REFIL & CHEM BALANCE**

Finally, we will refill your spa and balance the chemicals ready for you to enjoy!
